

## HiQ named IT Consultant of the Year 2010

– tops the list in Veckans Affärer's survey for the fourth year in succession

**HiQ has been named "IT Consultant of the Year 2010" in the magazine Veckans Affärer's annual survey of buyers of consulting services.**

"We have once again been ranked number one when the large consulting buyers rank their suppliers. To me this is a very moment as this is an award that is so clearly a result of the hard work that our skilled employees do every day. This award belongs to every HiQ-employee today," says Lars Stugemo, President and CEO of HiQ.

"The honour provides proof that focus and long-term thinking produce results. We always endeavour to deliver the best conceivable quality and to be a strong partner to our clients," says Lars Stugemo.

The survey is carried out annually with the help of more than 300 buyers of consulting services in the categories IT, Management, PR and Communications, Accountancy, Advertising Agencies, Management Recruitment and Corporate Law. Those taking part in the survey are asked to rate their suppliers as regards confidence, customer orientation, expertise and results. This is the ninth year in which the survey has been carried out and HiQ has been ranked in first place four times (in 2001, 2007, 2009 and 2010), joint first in 2008 and second in 2002.

"HiQ has worked on the development and quality assurance of systems, products and services for leading clients in the Nordic region for more than fifteen years, and quality and results are important keywords for us. We are proud to be able to deliver good solutions to our clients and naturally we are incredibly pleased and proud of the confidence that our clients place in us on a daily basis. Without this confidence we could not continue to develop HiQ and remain the best supplier of IT services in the future," says Lars Stugemo.
